## PROFILE

---

My philosophy is that architecture should extend beyond the building to provide benefits to the wider community whilst responding to the client's aspirations. It should delight the eye and enliven the spirit. My energy and resourcefulness combines to deliver intelligent responsive, bespoke architecture without compromising on quality.

I am accomplished, self-motivated and adaptable architect with 25 years experience in the construction industry with imagination and creative flare, calmness and confidence under pressure and the ability to communicate easily in all situations. I have strong design, organizational and project administration skills and the ability to motivate others into building team spirit.

I am passionate about environmentally responsible design and bring this to all aspects of my work

## EMPLOYMENT HISTORY

---

*2010 – Present GEBLER TOOTH ARCHITECTS – London*

- **Senior architect** small works at Heathrow and Gatwick airports. Responsible for the design development and implementation of a varied selection of small scale projects including:
  - Alterations to customs facilities
  - Refurbishment of Terminal 4 International Departures Lounge
  - Alterations to baggage handling facilities
  - Major peer review of Gatwick North Terminal Extension for Morgan Sindall
  - Design for an early bag store at Terminal 4, part of a major revision to baggage handling at Terminal 4
  - Design development of a large private house in Surrey
  - Rebuilding of the historic Electric Cinema, London

#### *2008- 2009 PASCALL + WATSON - Manchester*

- **Team leader/senior architect** working primarily on airport projects: the design development and contract documentation for a major redevelopment of Leeds/Bradford airport (£28 mill).
- Leading a team for the design development of the project. I have gained a large amount of knowledge for the design of airports and the complexities of airport planning, liaising with statutory authorities, airport stakeholders and local authorities.
- Leading a team to produce all the required documents and details. In addition I worked on several small enhancement projects at Manchester Airport

#### *2007-2008 WENSLEY ARCHITECTURE – Vancouver*

- **Project manager** responsible for design development, detailing and contract administration for a wide range of projects including:
- a mixed use residential development, a resort development and several large scale residential projects.
- Developed knowledge of wood frame buildings and specialist knowledge of wood frame envelope design.
- For each project I took the lead role steering the projects through the local authority stages, design development and contract administration. Project values \$15mil - \$30mil Cdn.

#### *2004-2007 DGBK ARCHITECTS - Vancouver*

- **Team leader/senior architect** responsible for design development, detailing and contract administration for a wide range of projects:
- Mixed use residential development;
- A visitor's centre for BC Wildlife Park - this project has been submitted for LEED gold.
- Sports centre extension in Williams Lake;
- a report for the restoration of a landmark government building.
- For each project I took a leading role. I have dealt directly with local authorities and clients on each project taking each job through all work stages.

#### *2003-2004 ArchitectureMK*

- **Contract senior architect/project manager** with ArchitectureMK, Milton Keynes, UK for the design development and contract documentation for a new primary school and project architect for several primary school extensions. Project value £150,000 -£3.5mil

#### *2000-2003 BUNTING COADY ARCHITECTS – Vancouver*

- **Project manager/contract administrator** As a senior member of staff I was primarily responsible for contract administration for complex major developments and took the lead role during the construction of several commercial developments for:
- Concert Properties
- Discovery Parks
- Bentall Corp.
- Led the initial phases for the design and replacement of the Peace Arch border crossing. Projects ranged in value from \$15mil - \$38mil

#### *1997- 2000 ROLFE JUDD ARCHITECTS - London*

- **Senior project architect:** responsibility for the design, detailing and administration of work packages, principally for a large commercial office development in central London.
- Leading a team of architects and technologists in addition to meeting clients and coordinating consultants. Contract value £38 million.

1995 – present *STEVE BURLAND ARCHITECTURE - Hull*

- **Sole trader** Periodic full range of architectural services. Projects included:
- Large private house in Beverley incorporating a grade II listed building
- Primary health care unit – London
- Bar / restaurant – Birmingham
- Primary health care unit phases I & II– Beverley, This project featured in MedEconomics magazine July 1997. A range of feasibility studies for commercial and domestic projects in Hull and district.
